# Hey.

I'm **Daniele Buser**, a 23-year-old **Swiss** creative developer who crafts **web** and **mobile** products where design and code work as one. I enjoy taking the **lead** on projects and always make sure to deliver with full **ownership** and care.

## Skills

TypeScript
React.js
Next.js
Motion
Tailwind CSS
Kotlin

## Education

**MSc in Informatics**
*USI — Università della Svizzera italiana*
Sep 2025 — Jun 2027
*Lugano, Switzerland*

**BSc in Informatics**
*Università degli Studi di Milano — Bicocca*
Oct 2022 — Jul 2025
*Milan, Italy*

## Tools

Git
VS Code
Android Studio
Linux
Webflow
Figma
Adobe Suite
Vercel

## Experience

**Frontend Developer**
*Fiverr*
Jun 2023 — Sep 2026
*Remote*

- Built responsive websites with **React.js** and **Next.js** for international clients.
- Turned **Figma** designs into pixel-perfect UIs using **TypeScript** and **Tailwind CSS**.
- Brought interfaces to life with **Motion** animations, iterating quickly on client feedback.

**Software Developer Intern**
*Università degli Studi di Milano — Bicocca*
Mar 2025 — Jun 2025
*Milan, Italy*

- Contributed to **SOPHYSM**, a tool to segment histology slides, simulate tumor evolution.
- Rebuilt **QML UI** from scratch using component-based design, speeding view creation.
- Redesigned the UI in **Figma** and configured **Qt/CMake** for cross-platform builds.

## I Speak

Italian (Native)

English (Fluent)
*IELTS — C1*

## Projects

**Creative Developer Portfolio**
*Personal Project — www.danielebuser.com*
Jun 2026 — Oct 2026
*Bovisio Masciago, Italy*

- Designed it in **Figma**, then built it with **Next.js**, **TypeScript** and **Tailwind CSS**.
- Crafted custom cursor effects and smooth-scroll animations with **Motion** and **Lenis**.
- Received an **Awwwards Honorable Mention**, rated 7.5/10 by the community.

**Ignition Finance Android App**
*Università degli Studi di Milano — Bicocca*
Nov 2024 — Feb 2025
*Milan, Italy*

- Developed an Android app using **Kotlin** and **Jetpack Compose**.
- Created dynamic visualizations for portfolio analysis, improving their **UX**.
- Incorporated **Jetpack** and **Firebase** libraries for data persistence and authentication.
